TROUBLE ON AGAIN.

Kentucky Election Contest Is in as Bad Muddle as Ever.

THE COURT'S RULING

It Says the Legislature Has the Right to Settle Gubernatorial Contest. The Militia Has Been Recalled to Frankfort.

Louisville, March 10.—A decision sustaining the contention of the Democrats, that the legislature is the tribunal designated by the constitution for the determination of contests for the offices of governor and lieutenant governor, was handed in the Circuit court this morning by Judge Fields.

The Republicans will appeal the case to the state court of appeals and if the decision there is against them they will try to get a hearing before the United States supreme court.

FOR GOEBEL MURDER.

Warrants Are Out Charging Republican Officials as Being Concerned.

Frankfort, March 10.—W. H. Coulton of Jackson county, a clerk in the office of State Auditor Sweeney, was arrested and placed in jail here charged with complicity in the murder of the late Governor Goebel. The arrest was made by Chief of Police Williams.

Warrants charging the same offense have also been issued for the arrest of Secretary of State Caleb Powers and Captain John W. Davis, policeman of the state capitol square, but they have not been served. Warrants against ex-Secretary of State Charles Finley and T. Powers, brother of Secretary of State Powers, charging them with being accessories to the Goebel assassination have been sworn out and sent to Whitney county for service.

Davis is in the city but was not at his residence and up to a late hour the police had not found him. It is not known if Secretary Powers is in the city.

Several witnesses who testified at the trial of Harlan Whittaker swore that the shots at the time of the Goebel assassination were fired from the direction of Powers' office and he and all of the parties for whom the warrants were issued have been under the strictest surveillance ever since the assassination.

Ex-Secretary of State Finley was one of the promoters of the mass meeting of the mountain men in front of the state capitol Jan. 25. He served as secretary of state during the four years when W. O. Bradley was governor. He was not in the city the day of the assassination, but left the day before.

Coulton, the only one arrested, was placed in a cell and not allowed to talk to any one.

The warrant on which Coulton was arrested, and for the arrest of the two Powers, Finley and Davis were based on an affidavit made by Thomas Cromwell of Lexington, Ky., before County Judge Moore. Cromwell has been assisting the detectives in hunting down the case and it is said that acting under directions from Colonel T. C. Campbell and Commonwealth Attorney Franklin, he spent several days in Hardin, Bell, Whitley and Knox counties, where it is alleged the evidence against the parties arrested were secured.

Public admission to the statehouse grounds was denied last night to all by order of the military authorities, but whether this is to be enforced longer is not known.

MILITIA RECALLED.

Governor Taylor Asks Them to Return to the Capital.

Frankfort, March 10.—Secretary of State Caleb Powers and Captain John W. Davis, two of the alleged suspects for whom warrants were issued Friday night, have not been arrested. They are said to be in the executive building of the state capitol, and the soldiers guarding the building refused to allow the police to enter the building to search for them.

It was rumored around the streets two or three hours before the police went to Davis' residence Friday night to look for them that warrants had been issued and they got wind of it and took shelter in the capitol.

The police made a second attempt to be allowed entrance into the executive building, but the guards said they had orders not to admit anyone. They declined to say who gave the orders. Gov. Taylor and Adjutant General Collier sent no answer to the two messages sent them by the police.

It is reported that Governor Taylor has issued orders for all state guards, who recognize him as governor, to come to the state capitol at once, and stirring times are apparently not far ahead.

Police were lined up in front of the state house today but made no decisive move after being twice refused entrance to the building for the purpose of arresting Secretary of State Powers and Captain Davis.

Sheriff Sutter took the warrants for the arrest of Secretary of State Powers and Captain Davis to the state house and was admitted to see Adjutant General Collier. He informed Adjutant General Collier he desired to enter the executive building for the purpose of serving the warrants and in the name of the commonwealth demanded he be permitted to do so. General Collier refused, saying that acting under orders from Governor Taylor nobody would be admitted to the executive building for an indefinite period.

Sheriff Sutter at noon began swearing in a big force of deputies to aid in arresting Powers and Davis who are supposed to be under the protection of militia in the state house.

There is a report out that Governor Taylor and other Republican state officers will leave at once for London.

ALASKAN BOUNDARY.

Lynn Canal Is the Obstacle in the Way of an Agreement.

Washington, March 10.—Although an effort is being made to press negotiations for the permanent delimitation of the Alaskan boundary, it is said that the decision of the subject is in progress between the United States and Great Britain.

In answer to the demand of the British for the establishment of the boundary at a point which would give the English control of practically all the Lynn canal. Secretary Hay recently sent an exhaustive memorandum, which in the opinion of American officials, clearly refutes the British claim and shows conclusively that the waterways belong to the United States. The British government has not answered this communication.

There is no doubt in the minds of officials that the loyalty of Canada to Great Britain will cause the London government to be more insistent of the claims of the Dominion. The United States, however, holds that the Lynn canal is its property, and the president has no intention of relinquishing it. The ultimate determination of the controversy will probably be reached by arbitration, the character of which will be the stumbling block in the negotiations.

TWO YEARS A PLENTY.

Americans in the Philippines in That Time Have Enough.

New York, March 10.—Dr. D. H. Morgan of the United States navy, is in this city. He has sent to the navy department a report in which he strongly recommends that the terms of office of officers and men in the navy service on duty in the Philippines shall be made two instead of three years.

"The climate there," said the doctor, "is very enervating, and its effects are more seriously felt in the second rather than the first year. The men cannot stand the strain of continuous service there."

"I do not believe that the revolution is at an end. The Filipinos are scattered about the islands, mainly in Luzon in small bands, but it is generally understood they are under orders to concentrate at any given point when the word is passed. I do not believe that Aguinaldo is in China. It is my impression he is still in Luzon."

"I notice much alarm has been manifested in different parts of this country lest the bubonic plague be brought here by the bodies on the Hancock. There is absolutely no reason for the slightest fear. None of the dead on the Hancock died of the plague."

Frisco's Charter.

Austin, March 10.—The charter of the St. Louis and San Francisco Railway company has been filed in the secretary of state's office. The object of the corporation is to construct its road from the city of Denison northward to a point on the north bank of Red river near the mouth of the Washita river, all of the road being in Grayson county. The capital stock of the company is \$300,000 and its principal office shall be in Denison.

Cotton Versus Tobacco.

Releigh, March 10.—John Cunningham, the largest tobacco grower in North Carolina, and chairman of the state board of Agriculture, says eastern North Carolina growers will not plant as much tobacco this year as formerly, as they intend largely to increase the cotton acreage. They are greatly dissatisfied with low prices of the last tobacco crop.

Regular Uniform Except Buttons.

Atlanta, March 10.—The regular uniforms of the United States army have been issued through the war department for 19 companies of the state militia, among the number five Atlanta commands. Georgia state buttons will be used on the coats, however.

Desperado Killed.

Albuquerque, March 10.—Samuel Sandoval, a young desperado, was killed and several citizens wounded in a battle at the town of Atarique, which followed an attempt to arrest Sandoval and Juan

The Eagle is authorized to announce
E. J. FOUNTAIN
as a candidate for alderman of Bryan at ensuing city election in April.

The Providence (Burleson county) correspondent of the Caldwell News-Chronicle says: "We want commissioners elected this time that will take more interest in our roads. Half the time this winter our roads were impassable and a great deal of the Christmas trade went to Bryan." The Clay Station correspondent notes that: "Everybody is enthusiastic over the new railroad that is to be built through Clay." The Volney correspondent of the same paper says: "Some of our farmers are planting the early

corn purchased from Mr. Moore, of the A. and M. college of Bryan. I favor a farmers' institute and think it would be wise and well for the farmers of Burleson county to ask Prof. Connell to come over and assist in organizing one."

Every farmer who owns his own land and is out of debt is independent. Banks may break, syndicates go to the wall, and markets may all be in the hands of the bears, and yet the farmer may sit on the back fence and whistle a merry tune, for he has the assurance that seed time and harvest shall not fail; that men must eat and he must help feed them; that when panics come he is out of range and under shelter.—Farm and Ranch.

It is said the republicans are doing all they can to organize an anti-Sayers movement. They may be able to organize it all right, but like others they will doubtless experience difficulty in making it move.

COMPLIMENTARY SERENADE

A Big Crowd Headed by the Harris Band, Calls on Judge Doremus—His Response.

In recognition of the invaluable services of Judge John W. Doremus towards securing the extension of the Calvert, Waco and Brazos Valley railroad, a big crowd of enthusiastic friends, headed by the Harris band, called on him at his home last night. There was splendid music, refreshments were enjoyed and felicitations exchanged in a manner highly pleasurable to all who were fortunate enough to be present. The faithful and persistent efforts which Judge Doremus has made during more than two years past to secure another railroad, working most faithfully when there were few encouraging words and small hope of success, have been the subject of much well deserved praise, which took form in the demonstration last evening. This popular sentiment was given proper expression in three rousing cheers for Judge Doremus proposed by Mr. J. W. Johnson immediately after he appeared and asked the crowd to partake of his hospitality. In response to the ovation Judge Doremus said:

GENTLEMEN—I desire to thank you for this expression of your appreciation of what aid you consider I have rendered toward securing the extension of the C., W. & B. V. railroad to Bryan. I would much rather have been known as a silent worker than to appear apparently in the lead; but let me say there are others of our citizens who have been equally active as myself in the promotion of this enterprise, who are equally entitled to a degree of self-satisfaction for what has already been accomplished. Your servant has had the co-operation and advice of a number of our citizens, for instance, Milton Parker, W. E. Sanders, J. W. Johnson, G. W. Smith, H. Rhode, J. W. English, W. P. Connelly, A. J. Buchanan, R. S. Webb, D. C. Zuber, Prof. L. L. McInnis and J. A. Myers, all of whom were always ready to respond to any demand laid upon them, and we are to be congratulated at the promptness with which our business men have responded. But every citizen and property owner should feel some degree of interest in the promotion of any enterprise that will advance, develop and build up his town and give stability to its business interests. This spirit can be exerted without prejudice or animosity to enterprises of like character already established. We all know with greater railroad facilities our lands, both in the city and in the county will enhance in value, our commercial interests will receive better protection and give us advantages of which we are now deprived.

Bryan has few superiors in Texas from a business standpoint. The large area of territory contiguous to Bryan has caused her to control such large receipts of cotton as to class her as one of the most important cotton markets in Texas, if not in the United States. In 1898 her receipts were over 44,000 bales of cotton, and in 1899 the receipts amounted to upwards of 30,000 bales, and had it not been for the disastrous flood of 1899, our conservative business men had predicted receipts far in excess of any within the history of the town. Now with two trunk lines of rail way within our city, we can safely predict a beginning of our town's prosperity.

Capital will, with a little exertion on the part of citizens, seek investment in our midst. There is no reason why capital should go to towns of less importance. There is no reason why Bryan should not have a cotton mill. Our cotton receipts are sufficient to maintain one of the very largest plants, and action should be taken in that direction. Let the business men of town organize a business men's league. Let every one become identified with it. Let proper committees be appointed to take charge of this matter and put our town in touch with capital that is hungry for investment. With cotton mills already established in our southern states and the prospect for the establishment of as many more during the year 1900 it will naturally force the mill owners of the eastern states to come to the territory where the staple is grown, and as the condition of affairs has materially changed in this direction, I believe that we will have few obstacles in our way in securing foreign capital to take hold of such an enterprise. With these few remarks, let me

again thank you for your presence here at my home.

Judge Board then responded to vigorous calls and set forth in fitting terms the spirit of appreciation on the part of the people of Bryan which had prompted the celebration. He said that while some men are born great, and some have greatness thrust upon them, Judge Doremus had become great in the labor he has so successfully undertaken for Bryan and her people, and that when the benefits of his great service come to be realized the all will remember him with even greater gratitude than they feel now.

Col. Dan Malvern, of Sherman, a veteran traveling man who said he had been coming to Bryan for thirty years, was next called upon. He said that it gave him great pleasure to meet a live man like Judge Doremus. He said they had such an one in Sherman, and recounted numerous enterprises now on foot and in prospect there. He said Bryan was one of the best towns in the state and predicted great things for us in the future in the way of more railroads and factories.

WASHINGTON NEWS.

Senate Considers Mason's Boer Resolution Behind Closed Doors.

Washington, March 10.—Discussion of Mr. Mason's resolutions expressing sympathy for the Boers was conducted in the senate Friday behind closed doors, Mr. Davis, chairman of the foreign relations committee, demanding that the doors be closed.

The feature of the open session was a speech by Mr. Lindsay of Kentucky on the Puerto Rican tariff bill and government measure. He opposed the tariff provision of the bill and some parts of the proposition for the Puerto Rican government. He maintained that under the treaty of Paris, which provided that the civil governments and political statutes of the native inhabitants of the island acquired by the United States from Spain shall be fixed by congress, that congress had authority to deal with Puerto Rico and the Philippines as it saw fit—giving free trade to the one and levying a tariff on the products of the other. He opposed the doctrine that the constitution extended ex propria vigore over the territory acquired by this government.

At the opening of the session of the senate Mr. Allison of Iowa reported from the committee on appropriations the house bill making appropriations of customs duties exacted from the island of Puerto Rico from Oct. 18, 1898, to Jan. 1, 1900, amounting to \$2,095,455 and gave notice that he would call up the measure.

The senate adjourned at 4 until 8, when the reading of the Alaskan code bill was finished.

Under the new rule adopted by the house Thursday setting aside the second and fourth Friday's of each month for the consideration of private pension bills. Mr. Sulloway of New Hampshire, chairman of the committee on invalid pensions, after the reading of the journal moved that the house go into the committee of the whole for the consideration of private pension bills. True to his announced intention of insisting upon the presence of a quorum, Mr. Talbot of South Carolina, made the point of no quorum. The speaker was unable to count more than 116 members present and the doors were closed and a call of the house ordered.

Many absentees appeared during the call and it developed the presence of 218 members. The house in committee of the whole, Mr. Lacy of Iowa in the chair, then proceeded to the consideration of private pension bills and 97 were passed.

Wheeler Did Resign.

Washington, March 10.—It appears that General Wheeler did tender his resignation last fall. It was dated Nov. 28, at a place called Paniqui, on the island of Luzon, and not cabled, but came by slow process of the mails. Moreover it did not come directly to the war department, but went to the White House, where it has been reposing since its arrival in Washington. The war department officials have just learned of it. The general's resignation was not accepted promptly by the president out of consideration for the officer. Instead he was ordered to report to the war department at Washington. His resignation will be accepted here and the effect of this action will be the allowing of mileage and expenses to Washington.

Assistant Surgeons.

Washington, March 10.—The president sent the following nominations to the senate for assistant surgeons in the marine hospital service:

Thomas D. Berry of Texas, B. H. Earle of South Carolina, M. Glover of West Virginia, B. J. Lloyd of Texas, John D. Long of Pennsylvania and Allen J. McLaurin of New Jersey.

Madisonville Meteors.

Mr. Thos. E. Wren, representing Sanders Bros. & Co., Bryan, was in the city Wednesday.

Madison county is rapidly settling up, new farms and farm houses being much in evidence on all roads leading through the county. Surely and steadily the county is moving up toward the head of the class.

Sheriff Black visited Bryan on business Sunday, returning Monday. He reports the town enthusiastic over the securing of the new road and that everybody is happy and the goose hangs high.

Bryan has entered into a contract with the Calvert, Waco and Brazos Valley road which secures the town an other road. Bryan is one of the best towns in Texas already, and we expect great things from the enterprising city when the new line is completed. She will be in a position to go into the wholesale business and offer such inducements as will bring factories and manufacturing enterprises.

tion of the democratic nominating
convention.

The EAGLE is authorized to announce

at ensuing city election in April.

The Providence (Burleson coun-
ty) correspondent of the Caldwell
News-Chronicle says: "We want
commissioners elected this time
that will take more interest in our
roads. Half the time this winter
our roads were impassable and a
great deal of the Christmas trade
went to Bryan." The Clay Station
correspondent notes that: "Every-
body is enthusiastic over the new
railroad that is to be built through
Clay." The Volney correspondent
of the same paper says: "Some of
our farmers are planting the early

corn purchased from Mr. Moore, of
the A. and M. college of Bryan.
I favor a farmers' institute and
think it would be wise and well
for the farmers of Burleson county
to ask Prof. Connell to come over
and assist in organizing one."

Every farmer who owns his own
land and is out of debt is indepen-
dent. Banks may break, syndi-
cates go to the wall, and markets
may all be in the hands of the
bears, and yet the farmer may sit
on the back fence and whistle a
merry tune, for he has the assur-
ance that seed time and harvest
shall not fail; that men must eat
and he must help feed them; that
when panics come he is out of
range and under shelter.—Farm
and Ranch.

It is said the republicans are do-
ing all they can to organize an
anti-Sayers movement. They may
be able to organize it all right, but
like others they will doubtless ex-
perience difficulty in making it
move.

COMPLIMENTARY SERENADE

**A Big Crowd Headed by the
Harris Band, Calls on Judge
Doremus—His Response.**

In recognition of the invaluable
services of Judge John W. Dore-
mus towards securing the exten-
sion of the Calvert, Waco and
Brazos Valley railroad, a big crowd
of enthusiastic friends, headed by
the Harris band, called on him at
his home last night. There was
splendid music, refreshments were
enjoyed and felicitations exchanged
in a manner highly pleasurable to
all who were fortunate enough to
be present. The faithful and per-
sistent efforts which Judge Dore-
mus has made during more than
two years past to secure another
railroad, working most faithfully
when there were few encouraging
words and small hope of success,
have been the subject of much
well deserved praise, which took
form in the demonstration last
evening. This popular sentiment
was given proper expression in
three rousing cheers for Judge
Doremus proposed by Mr. J. W.
Johnson immediately after he ap-
peared and asked the crowd to par-
take of his hospitality. In re-
sponse to the ovation Judge Dore-
mus said:

GENTLEMEN—I desire to thank
you for this expression of your ap-
preciation of what aid you consider
I have rendered toward securing
the extension of the C., W. & B. V.
railroad to Bryan. I would much
rather have been known as a silent
worker than to appear apparently
in the lead; but let me say there
are others of our citizens who have
been equally active as myself in
the promotion of this enterprise,
who are equally entitled to a de-
gree of self-satisfaction for what
has already been accomplished.

Your servant has had the co-opera-
tion and advice of a number of our
citizens, for instance, Milton Par-
ker, W. E. Sanders, J. W. John-
son, G. W. Smith, H. Rhode, J. W.
English, W. P. Connelly, A. J.
Buchanan, R. S. Webb, D. C. Zu-
ber, Prof. L. L. McInnis and J. A.
Myers, all of whom were always
ready to respond to any demand
laid upon them, and we are to be
congratulated at the promptness
with which our business men have
responded. But every citizen and
property owner should feel some
degree of interest in the promotion
of any enterprise that will advance,
develop and build up his town and
give stability to its business inter-
ests. This spirit can be exerted
without prejudice or animosity to
enterprises of like character al-
ready established. We all know
with greater railroad facilities our
lands, both in the city and in the
county will enhance in value, our
commercial interests will receive
better protection and give us ad-
vantages of which we are now de-
prived.

Bryan has few superiors in Texas
from a business standpoint. The
large area of territory contiguous
to Bryan has caused her to control
such large receipts of cotton as to
class her as one of the most im-
portant cotton markets in Texas,
if not in the United States. In
1898 her receipts were over 44,000
bales of cotton, and in 1899 the
receipts amounted to upwards of
30,000 bales, and had it not been
for the disastrous flood of 1899,
our conservative business men had
predicted receipts far in excess of
any within the history of the town.
Now with two trunk lines of rail-
way within our city, we can safely
predict a beginning of our town's
prosperity.

Capital will, with a little exer-
tion on the part of citizens, seek
investment in our midst. There is
no reason why capital should go to
towns of less importance. There
is no reason why Bryan should
not have a cotton mill. Our cotton
receipts are sufficient to maintain
one of the very largest plants, and
action should be taken in that di-
rection. Let the business men of
town organize a business men's
league. Let every one become
identified with it. Let proper
committees be appointed to take
charge of this matter and put our
town in touch with capital that is
hungry for investment. With
cotton mills already established in
our southern states and the pros-
pect for the establishment of as
many more during the year 1900
it will naturally force the mill
owners of the eastern states to com-
to the territory where the staple is
grown, and as the condition of af-
fairs has materially changed in
this direction, I believe that we
will have few obstacles in our way
in securing foreign capital to take
hold of such an enterprise.

With these few remarks, let me

again thank you for your presence
here at my home.

Judge Board then responded to
vigorous calls and set forth in fit-
ting terms the spirit of apprecia-
tion on the part of the people of
Bryan which had prompted the
celebration. He said that while
some men are born great, and
some have greatness thrust upon
great, in the labor he has so success-
fully undertaken for Bryan and
her people, and that when the
benefits of his great service come
to be realized the all will remem-
ber him with even greater grati-
tude than they feel now.

Col. Dan Malvern, of Sherman, a
veteran traveling man who said he
had been coming to Bryan for
thirty years, was next called upon.
He said that it gave him great
pleasure to meet a live man like
Judge Doremus. He said they
had such an one in Sherman, and
recounted numerous enterprises
now on foot and in prospect there.
He said Bryan was one of the best
towns in the state and predicted
great things for us in the future in
the way of more railroads and fac-
tories.

WASHINGTON NEWS.

**Senate Considers Mason's Boer Resolution
Behind Closed Doors.**

Washington, March 10.—Discussion of
Mr. Mason's resolutions expressing sym-
pathy for the Boers was conducted in
the senate Friday behind closed doors.
Mr. Davis, chairman of the foreign rela-
tions committee, demanding that the
doors be closed.

The feature of the open session was a
speech by Mr. Lindsay of Kentucky on
the Puerto Rican tariff bill and govern-
ments measure. He opposed the tariff
provision of the bill and some parts of
the proposition for the Puerto Rican gov-
ernment. He maintained that under
the treaty of Paris, which provided that
the civil governments and political stat-
utes of the native inhabitants of the is-
land acquired by the United States from
Spain shall be fixed by congress, that
congress had authority to deal with
Puerto Rico and the Philippines as it
saw fit—giving free trade to the one and
levying a tariff on the products of the
other. He opposed the doctrine that the
constitution extended ex propria vigore
over the territory acquired by this gov-
ernment.

At the opening of the session of the
senate Mr. Allison of Iowa reported
from the committee on appropriations
the house bill making appropriations of
customs duties exacted from the island
of Puerto Rico from Oct. 18, 1898, to
Jan. 1, 1900, amounting to \$2,095,455 and
gave notice that he would call up the
measure.

The senate adjourned at 4 until 8,
when the reading of the Alaskan code
bill was finished.

Under the new rule adopted by the
house Thursday setting aside the second
and fourth Friday's of each month for
the consideration of private pension
bills. Mr. Sulloway of New Hampshire,
chairman of the committee on invalid
pensions, after the reading of the jour-
nal moved that the house go into the
committee of the whole for the consid-
eration of private pension bills. True to
his announced intention of insisting
upon the presence of a quorum, Mr. Tal-
bert of South Carolina, made the point
of no quorum. The speaker was unable
to count more than 116 members present
and the doors were closed and a call
of the house ordered.

Many absentees appeared during the
call and it developed the presence of 218
members.

The house in committee of the whole,
Mr. Lacy of Iowa in the chair, then pro-
ceeded to the consideration of private
pension bills and 97 were passed.

Wheeler Did Resign.

Washington, March 10.—It appears
that General Wheeler did tender his res-
ignation last fall. It was dated Nov.
28, at a place called Paniqui, on the is-
land of Luzon, and not cabled, but came
by slow process of the mails. Moreover
it did not come directly to the war de-
partment, but went to the White House,
where it has been reposing since its ar-
rival in Washington. The war depart-
ment officials have just learned of it.
The general's resignation was not ac-
cepted promptly by the president out of
consideration for the officer. Instead he
was ordered to report to the war depart-
ment at Washington. His resignation
will be accepted here and the effect of this
action will be the allowing of mileage
and expenses to Washington.

Assistant Surgeons.

Washington, March 10.—The president
sent the following nominations to the
senate for assistant surgeons in the ma-
rine hospital service:

Thomas D. Berry of Texas, B. H. Earle
of South Carolina, M. Glover of West
Virginia, B. J. Lloyd of Texas, John D.
Long of Pennsylvania and Allen J. Mc-
Laurin of New Jersey.

Not Bubonic Plague.

San Francisco, March 10.—The board
of health has decided that the Chinaman
who died here several days ago and who
was supposed to have had symptoms of
bubonic plague did not die of the disease.
The quarantine which has been main-
tained in Chinatown for several days
has been lifted.

May Build a Packinghouse.

Corsicana, Tex., March 10.—W. H.

perienced in the butchering business, has
interested a number of gentlemen in a
movement to establish a packinghouse in
Corsicana.

Madisonville Meteors.

Mr. Thos. E. Wren, representing Sanders Bros. & Co., Bryan, was in the city Wednesday.

Madison county is rapidly settling up, new farms and farm houses being much in evidence on all roads leading through the county. Surely and steadily the county is moving up toward the head of the class.

Sheriff Black visited Bryan on business Sunday, returning Monday. He reports the town enthusiastic over the securing of the new road and that everybody is happy and the goose hangs high.

Bryan has entered into a contract with the Calvert, Waco and Brazos Valley road which secures the town an other road. Bryan is one of the best towns in Texas already, and we expect great things from the enterprising city when the new line is completed. She will be in a position to go into the wholesale business and offer such inducements as will bring factories and manufacturing enterprises.

THE TRANSVAAL WAR.

Boers Expecting a Clash with British at Biggersberg.

BULLER ON THE MOVE

Joubert Gone to Pretoria to Take Charge of War Office—Clamor to Secure Some of the War Loan Placed on Market.

London, March 10.—The only important change in the general situation in South Africa is that Buller is again on the move.

News comes in a dispatch from the Boer camp at Biggersberg, dated Thursday, saying:

"Twelve thousand British are threatening the Boer position from the direction of Helpmakaar, while a party of British scouts were encountered at Washbank on March 8."

This force is probably Hunter's division and it is considered possible an attempt may be made to traverse the neck of Zululand into the Transvaal, thus effecting the double purpose of outflanking the Boers at Biggersberg and threatening Vryheid and Utrecht.

The Boers are reported to be at Biggersberg in considerable numbers but it is said they are sending their stores to the rear.

Joubert appears to be left active service to take charge of the war office at Pretoria. Lorenzo Marques' stories attribute his action partly to the alleged fact he has lost both control over and confidence in the burghers, and partly to his wish to push preparations for the seige which is supposed will be made at the capital.

Roberts has not reported, but military authorities are of the opinion that French must be nearing Bloemfontein. In some quarters French is credited with a design to corral both presidents, whose actual whereabouts, however, are difficult to ascertain at this distance.

The war office is unable to confirm the rumors of the relief of Mafeking. Possibly this belief is the outcome of recent investigations indicating that if the relief column is to accomplish anything it must arrive without delay.

A rush of applicants for the war loan commenced at the Bank of England and various other banks, and a steady stream of people continued throughout the day. All sorts and conditions of persons were present, silk-hatted financiers, fine ladies, farmers, clerks, governesses and thrifty representatives of all classes. They appeared anxious to stuff their money into Britannia's pockets and it is estimated the loan was over subscribed within two hours after the time of the opening of the banks.

Must Await Senate's Action.

London, March 10.—No action has been taken by this government regarding the change which has come over the Nicaragua convention, as reported through lengthy cable dispatches dealing with the action of the senate foreign relations committee. The United States government apparently has made no representations to Lord Salisbury since the convention was signed, and the affair seems unlikely to be officially discussed until final congressional action puts it in such a shape that it becomes a matter for diplomatic reconsideration.

Pending this official opinion it is impossible to say what action Great Britain is likely to take regarding the senate's amendments of the treaty.

Removal of Bodies Dead of Contagion Prohibited in Mississippi.

Jackson, Miss., March 10.—An interesting controversy has arisen between the government and the Mississippi state board of health. The superintendent of the cemetery at Vicksburg has arrived in the city with orders from the secretary of war to disinter the remains of Federal soldiers buried in the Jackson cemetery.

The number of soldiers buried there are estimated to be between 50 and 75 and while the superintendent was making arrangements for the disinterment of them he was ordered to stop by the state board of health under the state statute prohibiting the disinterment of the remains of persons dying of contagious diseases. It seems that a majority of soldiers died of yellow fever and smallpox. The cemetery superintendent has wired the secretary of war for instructions.
